## DETAILED ACTION

### *Election/Restrictions*

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-32, drawn to a compound of structural formula as in claim 21 and a method of making the compound, classified in class 536, subclass 28.4.
- II. Claims 33-34, drawn to a method of preparing an  $^{18}\text{F}$  labeled thymidine, classified in class 536, subclass 25.32.

The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions of Group II, drawn to a method of making an  $^{18}\text{F}$  labeled thymidine involves an  $^{18}\text{F}$  incorporation step which has a different mode of operation, different function and different effect. Art anticipating or rendering obvious one group need not necessarily do so for the other. Moreover the search for one group is not needed for the other. Hence it would be serious search burden to search all these different compounds and methods within the limited time available for each application.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

In view of distinct nature of each of the inventions, the restriction is set forth in writing.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
